laser surgical device

# LASERTHUL<sup>®</sup>

- + Advantages of the thulium laser compared to the common holmium laser
- + Minimal swelling of wounds, reduces postoperative consequences
- + One of the gentlest methods: the laser beam penetrates no deeper than 0.25 mm, which guarantees gentle treatment of adjacent tissues
- + Shorter surgery time

Scope of application:

Proctology

Gynecology

Osteoperforation

Vascular diseases

Laser scalpel
